OUR GOAL

Thanks to the **ultimate technology** our **Inkpression** system can insure vivid **colors**, prefect **geometries** and great **performances**.

Crowded cities and their busy traffic can be stressful, but are a certain part of most commuters' everyday lifestyle. To balance it out, we bring nature into people's life, employing a number of methods, using natural materials, natural patterns or simply natural colors.

VOXFLO[®]
MILANO CREATIVE STUDIO

VOXFLO is always looking forward to **new solutions** and **advanced technologies** to improve its products in every direction, especially exploring **green resources** and environmental friendly **innovations**.

your color story

Since Italy has always been the global center of Innovation and Milano one of the World Capital of Fashion and Design, VOXFLO settles there its creative center.

A multicultural Team of Architects, Graphics, Fashion and Product designers, study, suggest and develop new trends, fresh flavours and inventive alternatives, to offer our clients the ultimate solutions for carpet tiles.

In this way VOXFLO sums up the top skills of a Chinese Manufacturer and the most original ideas of Italian Design, in a perfect mix of Western and Eastern taste, to develop the complete global vision of a Design Driven International Company.

LVT

LVT is defined as a **semi-rigid polyvinyl chloride block floor** under nation standards.

LVT is defined as **resilient floor coverings** under international standards.

Luxury Vinyl Tile (abbreviation: LVT) is known as stone plastic or PVC flooring. It is made of polyvinyl chloride or vinyl resin and is added to the appropriate stone powder additive for the floor (or wall) decoration in the building.

WARM & COSY

Distance changes utterly when you take the world on foot. A mile becomes a long way, two miles literally considerable, ten miles whopping, fifty miles at the very limits of conception. The world, you realize, is enormous in a way that only you and a small community of fellow hikers know. Planetary scale is your little secret.

BEYOND STONES

**Life is short and fragile
while the stone is eternal
and perfect.**

No better way is there to learn to love Nature than to understand Art. It dignifies every flower of the field. And, the boy who sees the thing of beauty which a bird on the wing becomes when transferred to wood or canvas will probably not throw the customary stone.

The **religious beliefs of the primitive society** were full of **eternal pursuits and awe of the nature and gods**. Stones became **a medium of communication** with the gods.

AFTER HUMAN

In the **previous chapters**, we have shown many **elements could recall the nature** on its own texture; Apart from those we have create this After Human products.

And here, **the feature of the pattern** you may have seen many times on the interior material basis. It's **polished and artificial**, all in luxury vinyl tiles.

A painter makes patterns with shapes and colours, a poet with words. A painting may embody an "idea," but the idea is usually commonplace and unimportant. In poetry, ideas count for a good deal more; but, as Housman insisted, the importance of ideas in poetry is habitually exaggerated. ... The poverty of ideas seems hardly to affect the beauty of the verbal pattern. A mathematician, on the other hand, has no material to work with but ideas, and so his patterns are likely to last longer, since ideas wear less with time than words.
