We are passionate about what we do, what we believe and who we are. Our business mission is simple: to create unique products, respecting society and protecting the environment.

With our carpet tile products, our professional service and our customers at our core, we aim to deliver our very best products and service to our customers.

Commercial spaces do not live just of carpet tiles, so, to satisfy the client needs of hard and semi-hard flooring, VOXFLOR offers a selection of LVT and WVT to integrate its proposal, to enhance its soft flooring solution with natural and colorful patterns.
VOXFLOR is always looking forward to new solutions and advanced technologies to improve its products in every direction, especially exploring green resources and environmental friendly innovations.

Since Italy has always been the global center of Innovation and Milano one of the World Capital of Fashion and Design, VOXFLOR settles there its creative center. A multicultural Team of Architects, Graphics, Fashion and Product designers, study, suggest and develop new trends, fresh flavours and inventive alternatives, to offer our clients the ultimate solutions for carpet tiles. In this way VOXFLOR sums up the top skills of a Chinese Manufacturer and the most original ideas of Italian Design, in a perfect mix of Western and Eastern taste, to develop the complete global vision of a Design Driven International Company.

Thanks to the ultimate technology our Inkpression system can insure vivid colors, prefect geometries and great performances.

Crowded cities and their busy traffic can be stressful, but are a certain part of most commuters’ everyday lifestyle. To balance it out, we bring nature into people’s life, employing a number of methods, using natural materials, natural patterns or simply natural colors.
Creativity has a central attention in product development, especially among the Inkpression collections.

Design is a need. According to this commitment, the development of new product is constant and never-ending. By grouping the products into large families, since finds its natural place into differences, multiple combinations can generate from time to time unique results. Every product has been built on a single and exclusive concept, in order to be able to meet any possible design request or need and to participate in the creation of an unrepeatable story. YOUR COLOR STORY.
Colors are human nature, colors are expression, colors are mirror of the taste.

VOXFLOR does not aim only to provide more fashionable products, but also to provide its customers with a more interesting flooring designs and to meet the needs of the customer’s space function.

ABW(Activity-based Work Environment), our flexibility helps us to create ABW work space. Concerned about people’s demands, we provide a wider range of colors and more comfortable carpets. We hope that our products will make commercial spaces more friendly, comfortable and efficient.
Alsace is an excellent option when looking for an ecological option. It’s part of VOX-FLOR GreenPad system which consists of Dupont Sorona fiber for its construction and Mix-back system for its backing. This combination allows permits to have a completely GREEN product, since Sorona fiber comes from corn fibers and the backing is made with 100% recycled plastic bottles.

A soft and delicate pattern enhances a selection of neutral grays and natural colors, taking a tropical environment mood as a reference to develop the collection concept. Based on the DuPont Sorona yarn fiber system, Bali is the perfect balance between a delicate shaded pattern and a perfectly sustainable product. The durability of Sorona fiber moreover allows a tip-shear construction to provide a softer touch to the carpet without compromising its resistance.

**SPECIFICATION**

Bavaria is one of the most classical VOXFLOR collections. With its distinctive, elegant and sober design, Bavaria offers a strong feature both in texture and construction, since it provides a Nylon 6,6 yarn with a Multi-level loop. It can be used in ashlar displacement to maintain its straight and fluid nature or in quarter turn to break the flooring geometry and generate a multi-directional feeling in the space.

**SPECIFICATION**

With a selection of 19 colors with a level loop tufted construction, Chanson is a basic product that, thanks to its consistency and resistance can be freely used in any commercial area. Chanson has been developed with Rive Gauche, a more rich and developed product, with a multi-level construction and a thicker pile, with the same color range selection. The two work perfectly together, balancing each others quiet and dynamic patters, or alone, with the chance of multiplying the designers options thanks to the opportunity given by the SHAPES system.

EUROGARDEN
COLLECTION

Eurogarden means infinite colors. Thanks to its piece-dyed Nylon 66 construction, it offers every possible color. Its standard production is about 101 different colors but thanks to the always possible customization, it can be offered in the desired color every time. In addition to this, it provides a multi-level designed pattern that breaks the static feeling given by the plain color, defining a new category in monochrome products.

FOREST COLLECTION

Forest collection is the migration of natural patterns into five different carpet tiles products, all connected by the same DuPont Sorona fiber. Caddo Lake offers a strong geometrical solution, Crooked Forest a grain effect, Daintree a softer and delicate bark pattern, Schwarzwald shows a squared natural pattern and Waipova Forest has a combination of geometrical shapes and lines.

Climate change, due to human indifference to the natural environment, pollution and deforestation, is one of the big issues for our Planet health, nowadays and in the close future. Glaciers are our resources and we must protect their purity and perfection. From here the choice of using **GREEN fibers** to develop this collection. DuPont Sorona comes from corn, requires low energy production and has the highest performance in stain resistance, to guarantee the product purity for 25 years.

GOTH COLLECTION

Goth is a selection of 36 color tones on a cut pile construction. There is no neutrality, every tone is rich and consistent in saturation. Its piece-dyed system permits its fiber to be different in every part and full of color shades. This creates a glowing effect of the carpet itself and a precious look.

• COLORS

• SPECIFICATION

Construction: Cut Pile
Fiber: Voxfor Certified Nylon 6.6
Gauge: 5/64”
Stitches: 10 per inch
Pile Weight: 22 OZ/yd²
Average Pile Height: 3.0mm±0.5mm
Backing: PVC with fiberglass

Tile size: 50cm×50cm
Area of Use: Commercial – General Duty
Anti-microbial: Ultra Fresh (Available)
Flammability: ASTM E 662, GB8624-2012 B₁(C)
Smoke Density: ASTM E 662, GB/T 8627-1999
Static Propensity: AATCC-134 ≤ 3.5kV, GB/T 18044-2008

66 67
Classic feeling, squared and linear geometries in a multi-level loop, Voxflor Certified Nylon construction. Guinness with its eight classic tones stands out for its elegance and refined appeal. Perfect for all those environment which requires a sophisticated formal solution with a touch of geometric complexity.

**SPECIFICATION**

Hub Collection offers unique features thanks to the usage of ECONYL 100% regenerated nylon fiber for its construction. In particular, Regeneration, is an elegant proposal with a discreet texture that gives a soft effect both to touch and sight which is achieved thanks to its Multi-level loop construction. This collection has a complete variety of natural tones, carefully selected in order to be matching one with the others and give a complete variety of combinations. Thanks to its technical features, this product offers an excellent resistance, that’s why can be recommended also for all the heavy traffic areas.

Hussar is a perfect example of basic product. It’s a low level-loop construction carpet which guarantees durability, easiness in maintenance, and a huge color selection to satisfy any need of commercial spaces. Thanks to the development of Hussar Wings, in which the basic color is overlapped with accent lines, the collection gets a boost in its potential. And with the addition of the SHAPES system the design option are infinite.

A soft and delicate pattern enhances a selection of neutral gray and beige colors, plus a series of color accents, to multiply the designer options. Pure and clean patterns as well as more creative solutions can be generated through the usage of this collection. Simple or articulated but, never flat.

LANDSCAPE COLLECTION

Two different base products, one with a stone-like effect, the other with a bark looking pattern, together with a full color product and an intermediate which allows a soft fading transition from one to the other, Landscape, with its multi-level construction, offers limitless solutions to the designer. Mixing colors, patterns and creating infinite combinations, taking inspiration from the natural environment, this collection is perfect for innovative, young and fresh working places.

Taking inspiration from the artworks of Piet Mondrian, and from the whole Bauhaus movement, this collection offers three different levels of aspect and carpet construction. Mondrian 100 offers a unique and dynamic base. Mondrian 200 adds thin lines of color accents while Mondrian 300 completes the collection with squares of full color, completing the collection geometry and adding a thicker pile product to provide additional movement of the flooring composition adding different stepping feeling.

Mundi collection is composed by a series of four different products, developed on five tones of gray. Base represents the root for the whole system, totally neutral, offers a solid and fresh background for young professional areas, dynamic commercial spaces and hospitality. Fossil and Misty are built up with the same texture of Base plus two strong pattern design. An eroded, aged net-like system for Fossil and a diffused melt for Misty, adding a strong color accent to the neutral scene. Moss is pure color, with shades of tone on tone, not to flatten its look. The four are left free to be used individually or in a homogeneous mix, according to the designer taste and will.

NARNIA COLLECTION

Narnia is part of the highlight products, featuring a resistant product with classic appeal. One of its best qualities is its compatibility with other products thanks to its elegant pattern. It can also be used with the SHAPES system to increase the design option. It is provided with the EcoAir-bac which gives the properties of lightness and therefore uses less material, making it more ecological without losing resistance making it perfect for any area or project.

• SPECIFICATION

Wander about life. And possibilities.
Venture the unknown. Be inspired. And create the new.
Virgin forest and untouched wild habitat are the backgrounds where this collection found its roots. Pure and natural patterns wisely mixed with soft and delicate colors are the keys to this product. Its construction of Multi-level loop Nylon 6,6 fiber provides an excellent resistance and durability. It comes in tiles and it’s perfect for all those places in which the nature of the materials shapes the interior design by themselves.

PRISM & CRYSTAL COLLECTION

Main feature of this collection is the shape of the tile itself. Both Prism and Crystal come in hexagon and thanks to this fact they already stand out of the crowd. Prism has a more classic level-loop construction, while Crystal offers a multi-level construction with a stronger linear pattern. The two can be used separately, playing more with colors, or together, with tone on tone effect, enjoying their texture differences.

CRYSTAL

• SPECIFICATION

Construction: Multi-level Loop

SAHARA COLLECTION

Sahara is an unconventional collection, since its cut pile structure and consistent pile thickness offers a soft touch solution for carpet tiles products. It looks like a hand-made carpet and the colored fibers shine in the light reflection. It's a perfect solution for all those luxury areas which requires a special product, as well as the hospitality sector where it can find a perfect location in bedrooms or lounge areas.

**SPECIFICATION**

- **Construction:** Cut Pile
- **Fiber:** Vosflor Certified Nylon 6.6
- **Gauge:** 5/64”
- **Stitches:** 9 per inch
- **Pile Weight:** 26 OZ/yd2
- **Average Pile Height:** 5.0mm±0.5mm

**Static Propensity:** AATCC-134 ≤ 3.5kV, GB/T 18044-2008
The collection is composed by three products: Aarup, Almhult and Molde. Aarup is based on a linear texture, Almhult crosses two main directions in its design, so to generate more movement, while Molde offers a more flat and calm feeling. With an elegant and dynamic design, it takes its best look by using a combination of two or even three products together. The collection comes with a scale of five grays, three beige and an intermediate color. Molde, moreover, has an additional selection of colors to expand the design options by introducing accents.

### Aarup

- Silver Sea 10
**SKETCH COLLECTION**

Sketches, freehand drawings, and kids art opens the way for this collection. It’s composed by a base product and an accent color one, which shares the same multi-level Nylon 6 construction. It comes both in planks and tiles, in order to increase even more the design composition options and to make this product even more playful, as its nature could suggest. Highly recommended in educational, informal and cheerful environments.

Inspired by the Earth surface, seen from outer space, Spacewalk offers a pattern which can be defined as New Classic. Spacewalk is composed by three products, which shares the same neutral colors, based on grays and beige tones, and different construction and pile weight. By mixing different products with the same colors, or different colors of the same product or even both, the options given by Spacewalk are limitless.

Infinite solutions can be adopted by using Strike collections. It’s composed by a base tile and one with color accents, in which multi-directional linear patterns create infinite dynamics in the flooring design. Thanks to its composition, its color accents match perfectly with the Eurogarden collection in order to allow the designer to play with the two collections as if they were part of a larger family.

TRENCH COLLECTION

Trench Dike is the solution VOXFLOR offers for the first entrance meters. With its incredibly strong fibers, it doesn't get effected at all by heavy traffic, dirt or wet. Its dark colors helps to have a strong division with the rest of the flooring and at the same time, the accents dots color, half hidden into its texture, provide that design touch that ensure a unique appeal.

• SPECIFICATION

Even though VOXFLOR core business is focused on carpet tiles, here is presented a series of vinyl tiles in order to complete the commercial flooring offer with a solution for all those areas in which the usage of fabrics is not recommended and, at the same time, to offer a hard surface which can be, for laying system and thickness, perfectly combined with carpet tiles.

LVT is the latest generation of vinyl flooring, the acronym stands for Luxury Vinyl Tiles while WVT is for Woven Vinyl Tiles and offer several options in colors, pattern and finishing in order to extend and multiply our offer according to the latest trends.
Above Woods collection offers an elegant solution for natural pattern demand. Its design is never flat and, thanks to its accurate details, can be easily confused with real wood planks. Its incredible technical features can guarantee extra long life and resistance to pantries, corridors and even open office flooring since its perfect match with every carpet tile collection.
